La, la, la, la, la
La, la, la, la, la, la, la... ooh

I kinda feel like time is passing us by,
But its killing me to leave you 'lone,
Cry all day long.
Baby I'm so sure that we belong,
Look in my eyes, they never lie.

I see it so clear right now,
I'm riding shotgun, we're headed there.
If I should disappear right now,
You wouldn't notice it or care.
Not at all!

Baby you don't see nothing,
You must be blind, out your mind, i see something.
I see us so clearly, it's like 20/20.
I see us in love, like the people on TV.
I see us in 3D.... I see us in 3D.
I see us together, it looks like forever.
I see us in love, now don't it look better?

La, la, la, la, la
La, la, la, la, la, la, la... ooh

Lately it seems like you don't even try,
I feel you wanna be left alone (like I did something wrong),
Baby come back to my door (door),
You'll feel so close in my sight (oh I, oh I, oh I)
Open your eyes.

I see it so clear right now,
I'm riding shotgun, we're headed there.
If I should disappear right now,
You wouldn't notice it or care (Notice me or care).

La, la, la, la, la
La, la, la, la, la, la, la... oh

Baby I can see us from a mile away
(Cause love is right in front of my face)
And its so close I can touch it.
Oh baby give us a chance,
See What I See
