You roll up they running scared yea yea

Ain't found no one that can measure up to you  
This feeling I feel I've only felt with you yea yea  
You got these hittas so intimidated  
With just a hit it ain't no hesitating  
I see things in you I can't see in nobody  
It breaks my heart that you can't be beside me

Writing you this letter in my feelings  
Just hearing your baritone on the phone  
I get overwhelmed  
Boy you know we locked in my heart locked down  
I swear I can't find nobody else to fit your crown  
(Your crown)

For a real one like you

Another real one like you  
Ooo you glisten you just shine  
Like nobody else do  
Don't even know why I'm still trying to find  
A real one like you

Writing you this letter  
Damn I wish that you could hold me  
Pen to the letter cause with you I got no worries  
Things that you do it always hit and make my soul shake

They can't love you like I love you sounds so cliché  
But when you say that to me, it just rings so truthfully

When I'm craving attention but nobody's you  
Only attracted to them gangstas cause of you  
Wish I had just one forever to spend with you
