

## After Dark

Mono Inc.

Lock away the paper trail, your data and your bling  
Try to save your valuables and all your show off things  
Get into your armoured car and try to do a hike  
Cause I think it could get a little unpleasant tonight

Just when you thought that we were beaten  
Just when you thought that we were weak

After dark we will crow  
After dark set your world on fire  
After dark we will crow  
We're the blaze and the flames grow higher

Lock away your secret files, your photographs and lies  
Try to save your medicines and your expensive ties  
Get into your armoured car and try to get away  
Cause I think it could get a little dangerous these days

Just when you thought that we were beaten  
Just when you thought that we were weak

After dark we will crow  
After dark set your world on fire  
After dark we will crow  
We're the blaze and the flames grow higher

After dark  
You're nowhere safe  
After dark  
There's no escape  
After dark  
You'll realize  
Forever you'll be haunted  
Cause our appetite won't die

Just when you thought that we were beaten  
Just when you thought that we were weak

After dark we will crow  
After dark set your world on fire  
After dark we will crow  
We're the blaze and the flames

After dark we will crow  
After dark set your world on fire  
After dark we will crow  
We're the blaze and the flames grow higher
