

Angels Never Die

Mono Inc.

Long ago in the afterglow
I went into the deep wide sea
The tide was high and I breathed good-bye
As the dark attracted me
I played it safe, I inhaled the wave
Till my mind was light and free
Embraced the surge till we finally merged
The universe and me

Don't be afraid cause angels never die
Angels never die
Don't cry
Don't cry
Die
Angels never die
Don't cry
Don't cry

You can dream of me you can speak to me
I know everything you do
You can count the days in your hideaways
But I'm always there with you
You can set the pace this is not a race
Till your mind is light and free
By your side we'll be till eternity
The universe and me

Don't be afraid cause angels never die
Angels never die
Don't cry
Don't cry
Die
Angels never die
Don't cry
Don't cry

Don't cry now
Angels never die
Don't cry now
Angels never die
Don't cry now
Angels never die
Don't cry now
Angels never die
Don't cry now
Angels never die
Don't cry now
Angels never die
