

# Forever

Mono Inc.

I came down the dirty road  
with empty hands  
and those sallow pictures in my head  
i felt cold and desolate  
and was straying at night  
but then you came to bring back brightness to my life

forever in my blood  
forever in my veins  
forever on my skin  
cause nothing else remains  
no fears and no oblivion  
but all precious hours run fast  
so let's make this last  
let's make this last forever  
forever

i fought back when i was lost  
bourt a million times  
but ran out of verdure in the end  
a man tired of battlegrounds  
i was dying at heart  
but then you came to spark the bonfire in  
the dark

forever in my blood  
forever in my veins  
foreveron my skin  
cause nothing else remains  
no fears and no oblivion

but all precious hours run fast  
so let's make this last  
let's make this last forever  
forever

for all those touching times i thank you love  
for painting beauty on grey things  
yeah when it all comes down on me  
you'll be the name upon my wings  
forever

no fears and no oblivion  
see al precious hours run fast  
we'll make it last  
make it last forever
