

There's something out there  
A pleasure you don't know  
There's something out there  
Let the pleasure be mine  
So let yourself go  
And share with devotion  
What gives you the creeps  
And a sense of delight

Call my name  
And I'll be right beside you  
I catch your tears  
Under bloodred skies  
I'll pave your way  
And free you from the load that's on your mind  
And when I'm done  
You'll know what it's like

There's something out there  
A privileg wasted  
There's something out there  
It's your dose of excess  
Receive and enjoy  
A rising so splendid  
The secret's unclosed  
When the sin has confessed

Call my name  
And I'll be right beside you  
I catch your tears  
Under bloodred skies  
I'll pave your way  
And free you from the load that's on your mind  
And when I'm done  
You'll know what it's like

So call my name  
I'll take the blame

I'll pave your way  
And free you from the load that's on your mind  
And when I'm done  
You'll know what it's like  
And when I'm done  
You'll know what it's like  
Yes when I'm done you'll be grown
