

## Looking Back

Mono Inc.

When the sound of the voices stop silently  
When the sound of your voice lost clarity  
Looking back - I'm alone

When the kiss of the touch stops suddenly  
When the kiss of your touch lost energy  
And I see what's kept the nightmare strangely... breathing

Looking back  
Looking back  
Looking back  
Looking back - I'm alone

When the sound of the voices stop silently  
When the sound of your voice lost clarity  
And I know that it's too late to wonder... whether

Looking back  
Looking back  
Looking back  
Looking back - I'm alone

Be with me  
Be with me  
I know that it's too late to wonder... whether

For the last line (be with me)  
For the last line (be with me)

Don't know why I'm talking, I don't  
You left me there, you kept me there, you swallowed it  
Stuck with the pain in my throat and you choke  
Feel my pain it will rain inside your brain  
Don't know why you listen to me, I don't  
I sit here, you sit there, swallow that  
Taste all the pain in my throat and you choke  
Feel my pain it will rain inside your brain

Looking back - I'm alone...
