

# Louder Than Hell

Mono Inc.

This is the point Of no return  
I gather pace  
And you're my primary concern  
Too late to hide  
Too late to run  
This is the end  
And it has only just begun

Relief from hurt, and fears  
Depart from your veil of tears  
Louder than hell  
Louder than faith  
Louder than light  
We're invincible tonight  
Faster than fire  
Harder than steel  
Brighter than stars  
Free and featherlight we are

This is your time  
So get your kiss  
Too many things  
Pending on you bucket list  
So be the one  
Who's cheating hell  
Uncatchable  
You'll be the white cap on the swell

Relief from hurt, and fears  
Depart from your veil of tears  
Louder than hell  
Louder than faith  
Louder than light  
We're invincible tonight  
Faster than fire  
Harder than steel  
Brighter than stars  
Free and featherlight we are

Louder than hell  
Louder than faith  
Louder than light  
We're invincible tonight  
Faster than fire  
Harder than steel  
Brighter than stars  
Free and featherlight we are

Louder than hell  
Louder than faith  
Louder than light  
We're invincible tonight  
Faster than fire  
Harder than steel  
Brighter than stars  
Free and featherlight we are

Louder than hell  
Louder than hell  
Louder than hell  
Louder than hell
