

No More Fear

Mono Inc.

All the way to a bright world
and all the way back
take the left or the right turn
you'll always turn in black
no regrets no sympathy
and no goodbyes
when all the roads seem elfstruck
until the end of time

No more, no more
this life is your escape way
No more, no more
the worst is yet to come
but beware, beware
the night is full of monsters
No more, no more fear

Feel the haze on your cold heart
and taste the rain on your skin
watch the sun going down on you
as your descent begins
no give-up no apathy
and no lullabies
when all the skies seem endless
and access is denied

No more, no more
this life is your escape way
No more, no more
the worst is yet to come
but beware, beware
the night is full of monsters
No more, no more fear
