

## Saving Grace

**Mono Inc.**

I took the bait but I was choking on it  
An empty body with aboullic lips  
I couldn't breath, couldn't think  
couldn't speak I've seen the poison spring  
I heard my heartbeat and heard the angels sing

So if I stare tonight  
Into your deep wide ocean  
You'll be my last resort at all times  
So if I plunge tonight  
In good faith and devotion  
I see the saving grace in your eyes

I tried it harder but I couldn't move  
It came and got me I ain't acid-proof  
I bring you freedom, peace and changes  
said this crushing thing  
But gravity just made my angels sing
