

## The Promise

Mono Inc.

Saved my life from the day that I met you  
and turned my grey into colors made of hope  
a broken man in dire-land until you came and restored  
so say you'll hold my hand when it's time to go  
I won't go without you  
I won't go without you, Love

You saved my life from the day that you kissed me  
and turned my world into a place I didn't know  
a broken soul you made it whole so I'll be there in return  
yeah I will hold your hand when it's time to go  
so don't go without me  
don't go without me, Love  
I won't go without you  
I won't go without you, Love

Across the river of hopelessness you taught me how to swim  
and through the tangle of forfeiture you taught me how to win  
across the haze of suspiciousness you taught me how to see  
so promise you won't go without me

Don't go without me  
don't go without me, Love  
I won't go without you  
I won't go without you, Love
