

The Blind Man

Mono

What are you waiting for
What are you waiting for
What are you waiting for
What are you waiting for

Searching for the answers but we've lost our way
No one ever stops to hear what you've got to say
I'm locked inside you, let me out
Trapped in a vision of what there about

Looking for a reason that will never be
I'm not the person that you think you see
There's something wrong here
There's no doubt
You're like a blind man
Can't see our.

If he can't hear he must feel
If he can't feel he must see
If he can't hear he must feel
And if he can't see you feel the need in me
Feel the need in me
What are you waiting for
Feel the need in me

Walking through a shallow empty world of doubt
I'm in the picture now
But you want me out
There's something strong here
You don't see
You've gone too far now
So empty

If he can't hear he must feel
If he can't feel he must see
If he can't hear he must feel
And if he can't see you feel the need in me

If he can't hear he must feel
If he can't feel he must see
If he can't hear he must feel
And if he can't see you feel the need in me
Feel the need in me
Feel the need in me

What are you waiting for
What are you waiting for
What are you waiting for
What are you waiting for

If he can't hear he must feel
If he can't feel he must see
If he can't hear he must feel
And if he can't see you feel the need in me
Feel the need in me

What are you waiting for

Feel the need in me

What are you waiting for

What are you waiting for

What are you waiting for
