

Burning Sun

Monolink

I dreamt I had a dream out in the desert
Lying naked underneath a liquid sky
I had no past as time was moving backwards
Just the burning sun reflected in my eye

Burning sun

I crawled onto an island made of plastic
Where every life's condemned to be undone
Take me back to where it all once started
Take it all back home to the yellow burning sun

And then I dreamt I fell in love with every heartbeat
I got up from my knees and learned to run
I saw things be born and I saw things dying
In the haze of the yellow burning sun

Burning sun
The burning sun
The burning sun

I dreamt I had a dream out in the desert
Lying naked underneath a liquid sky
I had no past as time was moving backwards
Just the burning sun reflected in my eye
