

## Once I Understood

Monolink

Once I understood  
What time's about  
I could hear it from the whispers in the wind  
They spoke so loud  
And I knew for sure  
That love was real  
Eyes of a child  
Kites in a tree  
An ocean so wild

Once I understood  
Where I belong  
Once I saw the world  
In right and wrong  
But as time went by  
I saw too much  
The cost of my love  
A mouth full of lies  
A crack in the skies

The night is cold  
Wake from a dream  
Pull me outside  
Breathe in the clear  
Biting truth of paradise

Can you leave it all behind?  
Can you leave it all behind?  
Do I see or am I blind?  
Through the eyes of a child  
Through the eyes of a child  
Through the eyes of a child  
Through the eyes of a child
