

Otherside

Monolink

Come alive
And take yourself
To the other side
To the other side

Hold your breath
Keep the smoke inside
And step into the light
Step into the light

On the other side
On the other side
Am I losing my mind
Welcome to the other side

Rays of light
And shapes collide
Kaleidoscope
Kaleidoscope

I'm losing form
And I'm losing touch
Have I gone too far?
Have I gone too far?

On the other side
On the other side
Am I losing my mind
Welcome to the other side

You run and you run
For a glimpse of the sun
But it's sinking
You run and you run
For a glimpse of the sun
But it's sinking

You run and you run
For a glimpse of the sun
But it's sinking
And you run and you run
For a glimpse of the sun
But it's sinking

On the other side
On the other side
Am I losing losing losing my mind
Welcome to the other side

Come alive
And take yourself
To the other side
To the other side
