

Running

Monolink

When I get so lonely
I don't wanna be by myself
I'm digging out your number
Because I couldn't find nobody else

And then I'm running
I'm running
I'm running right back to your door
I'm running
I'm running
I'm running right back to your door
And then I'm running
I'm running
I'm running right back to your door
I'm running
I'm running
I'm running
I'm running right back to your door

When I get so lonely
I don't wanna be by myself
I'm sifting through the papers
Because I couldn't find nobody else

And then I'm running
I'm running
I'm running right back to your door
I'm running
I'm running
I'm running right back to your door
