

The Prey

Monolink

Sin

I see your eyes you check my skin
Just wait your turn, let me begin
You own the game you let me win

Lies

It's 35 to kick my pride
Ten more for the taxi ride
But I wanna be with you tonight

Pay

Am I dreaming?

Pay

What I'm seeing

I follow you down the open hall
The closer we get, the more I fall
I wanna believe in what I said
But it's only lies inside my head
So take me back to when we're young
Back to where we started from
Nobody said we'd spin this fast
Nobody said that it would last
That we would last

Slow

It's 45 to strip my soul
20 more to let me go
The play is done before the show

Light

Is waiting in the car outside
To take you back into the night
Can't move until you're out of sight

Pay

Am I dreaming?

Pay

I'm still breathing

I follow you down the open hall
The closer we get, the more I fall
I wanna believe in what I said
But it's only lies inside my head
So take me back to when we're young
Back to where we started from
Nobody said we'd spin this fast
Only a fool would make it last

Only a fool would make it last

Sin, sin, sin
