

We Don't Sleep

Monolink

Find somebody
Find somebody
How do you find somebody to love you
How do you find somebody
How do you find somebody

How do you find somebody to love you, love is a lie
Keep on looking all around for someone not to pass you by

Someone's now
Someone's now

Do you find somebody to love you if love is a lie?
Keep on looking all around for someone not to pass you by
There's a hole inside your chest and it keeps growing if you st
are inside
But when you try to look away you only see the love that you ca
n't find

We're the last of our kind
We're lost in our time
Broken inside, but not alone
Last of our kind
And we're frozen in time
Lovin' inside
You're not alone

How do you find somebody to love you
How do you find somebody to love you
How do you find somebody to love you
How do you find somebody to love you

How do you find somebody to love you
How do you find somebody to love you
How do you find somebody to love you
How do you find somebody to love you
