

The Only Road

Monolord

I found myself walking on empty roads
I see them everywhere, in my mind forever
Found my treasures on the ocean floor
I feel the emptiness and the itching in my brain

We got lost when drying in the cold
Can't see you anywhere but I can hear your screaming
No hope to find us anymore
Poison everywhere, we became the living dead

When we are defeated and can't breathe anymore
We won't keep fighting
Not anymore

I closed her eyes, kept walking endless roads
I see her in my dreams, where we live forever
Time has come for me to leave this world
There's no future here, I kiss the ground goodbye
I kiss the ground goodbye
