

You can't hide  
I realize  
Have no fear  
Hypnotized  
Until now  
Say good bye  
You're in the mountains eye

Set aside  
Don't want you by my side  
Coal black eyes  
Sharpest tongue inside  
Cloaked in grey  
Need to unveil  
Truthful and clear  
I'll sink you in the mere

Walk in through the light  
You're bleeding by my side  
Screams filled with fright  
You start to curl and moan  
I'm counting heavy stones  
I'll wait 'til we're alone
