

About Last Night

MONSTA X

Woke up in a holy haze
Don't know how I found my way home, yeah, my way home
And I think I drank my body weight
Called my ex up on the payphone, a payphone

And there were pretty people crawling on me
Twisting on me, out of control, control
And when you shimmy, shimmy, touch my body
Hit me with it down to my bones, my bones

About last night, I was undone
God, it feels right being so wrong
And I realized
All the blurry nights are when I feel alive
About last night, I was so gone
Out of my mind, falling in love
And I realized
All the blurry nights are when I feel alive
About last night

Woke up, couldn't feel my face
Help, my brain's in outer space, oh, oh oh
Looking for a heart to break
I know I should probably stay home, stay home

And there were pretty people crawling on me
Twisting on me, out of control, control
And when you shimmy, shimmy, touch my body
Hit me with it down to my bones, my bones

About last night, I was undone
God, it feels right being so wrong
And I realized
All the blurry nights are when I feel alive
About last night, I was so gone
Out of my mind, falling in love
And I realized
All the blurry nights are when I feel alive
About last night
