Be quiet

Be quiet
Be quiet
I hear the goddess entering
The moment I turned my head

I can't figure out where the exist is
I'm flustered, can't handle it, but I like it

Everyone move, I'm too hyped right now
Whatever you say
I can't calm down, oh god oh god
Please try to stop me
My heartbeat's
Like boom boom boom boom
Besides you, I can't hear anything
It's quiet, mute on
I wanna hear you from a little closer
Anything about you, I listen

Burn me up, fire (throw it all)
My desire for you (whisper to me)
The sound of my heart gets higher
What words are needed?
Besides her, everyone else
Be quiet

Feels like I'm running out of breath
Even my quiet breathing, be quiet
Oh my heart is, bump it, too excited
Bump bump bump it, ecstatic
I don't wanna keep hesitating

Oh my god oh my god
What are you looking at?
Dangerous Dangerous
Besides me, they're all dangerous
Each look and gesture
Only show it to me baby

Burn me up, fire (throw it all)
My desire for you (whisper to me)
The sound of my heart gets higher
What words are needed?
Besides her, everyone else
Be quiet

Girl, it's so weird, why are you the only who's pretty? (gosh)
I don't need anything else, only you're mine (right)
OMG OMG OMG
Right now, come on baby

A small secret in the world
Surrounded by small sounds
Deeply falling into this falling
Can't figure out where it ends
Don't stop

Be quiet
