Beastmode

I don't give a what huh  
What they gotta say  
It's rough outside and it's too dangerous eh  
I know the world is testing us anyway eh eh eh eh

Charge like an unbridled foal  
This board is too narrow, we movin the world'  
Yo stand-by hah watch us how we design  
Climb over your head  
I can see you're freaked out

When you call me eh  
Shake my mixed feelings  
See a beauty and a beast inside yeah  
It rises and fires more and more, it rises higher and higher  
Take me out of me  
Say we are we are we are

Open your eyes, we are beast mode

Brrr rat-tat-tat-tat  
It don't matter we do it better

Jump up to the sky  
Jump over the field

We run on the stage  
Grab the atmosphere here uh

Baby you know I fear  
Cuz baby you know what I feel (you feel me)  
Nothing can move anyone

It feels like a veil, your sharp eyes  
Feeling like you hate me

I can't see the darkened future

When I do that eh  
Turn this tangled world upside down  
See a beauty and a beast inside yeah  
The heat is my power, it makes the sound louder  
Take me out of you

Open your eyes, we are beast mode

Brrr rat-tat-tat-tat  
It don't matter we do it better

Jump up to the sky  
Jump over the field  
We run on the stage  
Grab the atmosphere here uh

When I walk the path I have decided  
Without knowing where this is  
Please leave me alone  
When I'm losing me

Reach out and hold me, we need your love  
No matter how much you block us, shout out to the world  
Wake up, in front of the continued running run and run  
Just go and we will fight for your love

Open your eyes, we are beast mode
