

## BESIDE U

MONSTA X

From Miami to South Korea, hahaha  
MONSTA and Mr. Worldwide, let's ride

No matter where you are tonight  
I'ma fly 'round the whole world to find you  
I know you could be that, down to ride  
You know I would leave oceans behind you  
Set in the jet trail, with a cloud of smoke  
Spell your name out, for the cosmos  
No matter where you are tonight  
I'ma make sure I end up beside you

I got a passport, I just need a place, I'm down  
Gonna be there when you wake up in the middle of the night  
I just wanna be the one you call on  
Be the body pillow that you sleep on  
I can feel your aura calling me on  
This whole night going back too slow  
So tell me how to reach ya, get my body beneath ya  
Send me your location, so I can come and see ya  
Know I'm out of space between (Ooh)  
Can't take it out my mind, yeah  
You are where I'm supposed to be  
You know

No matter where you are tonight  
I'ma fly 'round the whole world to find you  
I know you could be that, down to ride  
You know I would leave oceans behind you  
Set in the jet trail, with a cloud of smoke  
Spell your name out, for the cosmos  
No matter where you are tonight  
I'ma make sure I end up beside you

One to the two, three to the four, five to the six  
Seven to the eight, shake 'til it vibrate  
One to the two, three to the four, five to the six  
Seven to the eight, shake 'til it vibrate  
She know that she bad, jean full of ass  
Want what she got, want what she have  
I see you being bad, baby  
I'm all in the cut, pouring it up  
Rollin' it up, holding it up  
Not givin' a what  
You roll with me, you gon' see  
How I s'posed to be?

Spell your name out, for the cosmos  
No matter where you are tonight

I'm sick and tired of E-T-C  
So try to get that, make that, uh  
Bitch, I'm like a masterpiece  
They'll keep you from the L-U-V  
How many times I have to say it?  
How many times I have to wait?  
How many times you think of me?  
Baby, how many times are we, are we?  
Send me your location, ain't no need to beware  
I been lookin' for a place, so I'ma be there  
Spendin' all the things ain't pro-B-L-E-M  
Now, baby, let me take you and just spell your name

No matter where you are tonight  
I'ma fly 'round the whole world to find you  
I know you could be that, down to ride  
You know I would leave oceans behind you  
Set in the jet trail, with a cloud of smoke  
Spell your name out, for the cosmos  
No matter where you are tonight  
I'ma make sure I end up beside you
