000 000 blind

I faintly see your silhouette

I'm running out of breath

So I stopped breathing

Stop your pushing right here

Pull me, I'll become lighter

If it's hard, I'll be a feather

I'll move however you want

(Move baby)

(Even my shadow follows you)

She go low she go low she go low

I go up I go up I go up I go up

Show me, I'm ready

I can't hold it in anymore

I wanna rip apart the blinds that cover you

Put your blinds up

Don't be shy, give off a bright light

I see it, blind

I see it, blind

I'm awake, drunk with your sunlight

Getting heavier with your mysteriousness

Why hide yourself? You're beautiful enough

You and I, our two shot is too far away

Blind, I'm blind
You keep teasing me

You know how to deal with guys, baby
I'm being swept away by you

Your existence flickers before my eyes
Don't disappear, freeze like ice
Stop right there
Maybe we're playing freeze tag
Don't look at me like that
I'm only looking at you
I know I'm being too forward
So you can be bright with me

I'm curious about what you're thinking of
I'm so frustrated, do you know that?

Yeah, you're so bad
Because you already know
Don't be like that alone, be with me
Play with me

She go low she go low she go low
I go up I go up I go up I go up
Show me, I'm ready
I can't hold it in anymore
I wanna rip apart the blinds that cover you
Put your blinds up
Don't be shy, give off a bright light
I see it, blind
I see it, blind
I'm awake, drunk with your sunlight
Getting heavier with your mysteriousness
Why hide yourself? You're beautiful enough
You and I, our two shot is too far away

Show me your world
Show me your world
Show me your world

Girl show me your shine
Show me your light
Surrounding you
A dazzling light
You make me blind

Show me your world
Show me your world
Show me your world

That aura surrounds you
Of course the spotlight will go on the star
Girl, you're worthy of that
It's alright because it's you, blind
