I breathe only for you you you you

Wide open sea and dry air
Dazzling sunset an transparent eyes
Open ocean a little deeper
Come in and let me breathe with you
Kiss, it was so beautiful
At the moment you face
Magic, it was so beautiful
A breathtaking moment

Come closer, my world is full of you
I'll fill you up
Beautiful eyes that stopped everything
My first sight view view view
At the moment of climax
It was you you you you
I breathe only for you you you you
I breathe only for you you you you

Depressing moment ay lightening up ay
You made me nothing to worry about, I'm going to you
You're my star
Can't help I'm fallin' in love

You made me reset
Another day after resetting
Your kiss changes everything

Let me breathe again
Can feel only sensation you give me
Only one who woke me up you you you you
I breathe only for you you you you
I breathe only for you you you you

You can not let go of this moment
The day dark night is buried in the mud
Can you get it out
The world so full of you feels great
I want to keep you in me and be one forever

I breathe in I breathe out
I breathe in I breathe out
Only reason I live
Because of you you you you
I breathe only for you you you you
I breathe only for you you you you
I breathe only for you you you you
I breathe only for you you you you
