

GOT MY NUMBER

MONSTA X

If you need someone who can love you while he's gone
Baby, you got my number, got my number, woah
When you realise, it ain't him that's on your mind
Baby, you got my number, got my number, woah

Three dots tryna tell me
Trying hard not to text me
Is it because your bed is empty?
Is it right there and you can't see?
Everybody wants what they want, love who they love
I wouldn't judge, and I can keep a secret so

If you need someone who can love you while he's gone
Baby, you got my number, got my number, woah
When you realise, it ain't him that's on your mind
Baby, you got my number, got my number, woah
So who you gonna call when you want to, do them things he won't
do
Baby, you got my number, got my number, woah
So who you gonna call when you want to, do them things he won't
do
Baby, you got my number, got my number, woah

Nobody needs to be lonely
Just say that word and you won't be
Cause I don't want to turn up your heartbeat
And if you got dials baby no need
Everybody wants what they want, love who they love
I wouldn't judge, and I can keep a secret so

If you need someone who can love you while he's gone
Baby, you got my number, got my number, woah
When you realise, it ain't him that's on your mind
Baby, you got my number, got my number, woah
So who you gonna call when you want to, do them things he won't
do
Baby, you got my number, got my number, woah
So who you gonna call when you want to, do them things he won't
do
Baby, you got my number, got my number, woah
