

# HAPPY WITHOUT ME

MONSTA X

Has it really been five months, six months?  
Glad to see we both moved on, moved on  
Do you think about sometimes?  
Cause I think about you sometimes

Didn't know you liked to party like that  
Now you always got a drink in your hands  
Cause you having fun but I'm not

Cause I hate to see you happy without me  
I should really want the best for you  
But you know I got to tell the truth  
And I hate to see you happy without me

I know I told you we could still be friends  
But I see pictures of you smiling  
And I hate to see you happy without me, me, me  
And I hate to see you happy without me

Yeah I know it didn't work out together  
But somehow you got me worse than ever  
I don't think about you sometimes  
Cause I think about you all the time

And it's crazy cause honestly I'm doing okay  
But the other ones I'm talking to don't feel the same at all (mhmh)

Cause I hate to see you happy without me  
I should really want the best for you  
But you know I got to tell the truth  
And I hate to see you happy without me

I know I told you we could still be friends  
But I see pictures of you smiling  
And I hate to see you happy without me, me, me  
And I hate to see you happy without me

Maybe I'm just really good at faking smiles  
Posting all those pictures 'cause you know that I will see

Oh, cause I hate to see you happy without me (happy without me)  
I should really want the best for you (I should really want the best for you)  
But you know I got to tell the truth (But you know I got to tell the truth)  
And I hate to see you happy without me (Woah happy without me)

I know I told you we could still be friends  
But I see pictures of you smiling (I see pictures of you smiling)  
And I hate to see you happy without me, me, me  
And I hate to see you happy without me
