

## main attraction

MONSTA X

It must be magic  
The way you float  
Your beauty's criminal ya stole the show  
I'm out of body another world  
How many hearts you have to break to be that girl

Diamond in the night wanna dance in your glow  
Stunning from head to toe  
You came in

Walking like the main attraction  
Starry eyed for you  
Setting off a chain reaction  
Making me your fool

Can't see no one else in the room  
Spotlight and it's shining on you  
Baby you're the main attraction

You got it like that  
Main attraction  
You got it like that  
Main attraction, main attraction

I don't care nothing 'bout sand I got the beach  
And why would I wait in line when I got front row seats  
Swear I can't find a flaw you a masterpiece  
In a fantasy

Diamond in the night, wanna dance in your glow  
Stunning from head to toe  
You came in

Walking like the main attraction  
Starry eyed for you  
Setting off a chain reaction  
Making me your fool

Can't see no one else in the room  
Spotlight and it's shining on you  
Baby you're the main attraction

You got it like that  
Main attraction  
You got it like that  
Main attraction, main attraction

Walking like the main attraction  
Give me instant satisfaction  
Come in closer baby I need more

Swear I'm not overreacting  
Give me instant satisfaction  
Come in closer baby won't ya give me just a little bit more

Walking like the main attraction  
Starry eyed for you

Setting off a chain reaction  
Making me your fool

Can't see no one else in the room  
Spotlight and it's shining on you  
Baby you're the main attraction

You got it like that  
Main attraction
