I don't know what to do, dunno what to do  
So why don't we just nod all day  
I know what to do I know what to do

Low wave to the music  
Just let go of you naturally  
Throw it away  
You forget all the noise of this city

Let's play it cool  
Even meaningless words  
Wanna talk with you  
It seems to suit, the lighting is blue now  
The sky I looked up is beautiful  
Like a waterfall  
Shall we dance on the moonlight

Shining like a waterfall  
Shall we dance on the moonlight  
Shining like a waterfall  
Shall we dance on the moonlight

Ok let's make an analogy, I'm a supercar  
My speed is fast, this night is a green light  
If you decrease the yellow speed  
With the engine on, I'm ready for the red light  
Go through the vroom noise  
Increase the volume and choose what you want  
With a heavy bass  
If you're curious to be sexy, just subtract why girl

Let's play it cool  
Even meaningless words  
Wanna talk with you  
It seems to suit, the lighting is blue now  
The sky I looked up is beautiful  
Like a waterfall  
Shall we dance on the moonlight

Shall we dance on the moonlight  
Shining like a waterfall
