One love

One love,
I didn't know love
Two love,
I didn't know love
Three love,
But now I want it to be our own time
I'm about to go crazy, love was only a big gap
But my heart is only for you,
Why do you keep forgetting (like a fool)
Why do you turn against me
And cry as you leave, dummy?
I can see it all so please stop crying, dummy
I just like you, there's no reason, I don't know why
I'm not a guy who just picks a time
And starts falling in love

One love,
I didn't know love
Two love,
I didn't know love
Three love,
But now I want it to be our own time

One love,
I threw away my everything
Two love,
I didn't know it was pain
Three love,
But now I want it to be our memories

Sorry baby have to tell you
I can't hold it back, it's at the tip of my tongue
Now I wanna say it's us two instead of me alone
Even if it's a little forceful, just accept me
More than you are mine, I am yours
This feeling goes past love and goes into greed
I just want you girl
I want you, I want it
I want you so bad, I'm going crazy,
My actions go before words
Instead of saying don't go, I hold onto your hand
I wanna go inside of you,
I'll be your baby
I'm just talking about you girl
Don't think it too much

One love,
I didn't know love
Two love,
I didn't know love
Three love,
but now I want it to be our own time

One love,
I threw away my everything
Two love,
I didn't know it was pain
Three love,
But now I want it to be our memories

One love one love one love one love
I didn't know love
I have no worries but I'm sad I let you go
So I'm going a little crazy
Where is the person
Who said I was enough?
I am waiting like this

One love,
I only knew myself back then
Two love,
I only knew myself
Three love,
But now I'm sorry

One love,
On the day I missed you so much
Two love,

I couldn't wait
Three love,
Now I want to see only you every day

One love
