Your beautiful stature, everyone keeps glancing at you
It's a scenario that I expected but I'm scared
Don't mind all the things surrounding you
When they stand by your beautiful self
They are nothing babeWill you - poof -
Disappear like smoke
Will you run away if I approach you
(Not even for one night) I can't be at ease
I keep doubting
I'm obsessed before I know it
It's hard to wait for you anymore
All my breath is full of you
I will try to handle you who's put my heart in disarray

I'll be your king
And baby you'll be my queen
Whatever it is, I am ready for it
For everything
I can draw a dot on you
We can become a piece of artwork
Baby call it "the finishing touch"

Everyone worships you
Pierce through your world and come to me
I want everything
Come to me a little more secretly
I am not afraid at all
Bring your heart here
Come to me
You are my only queen

Nothing needs to be said
My hands are sweaty
I am inexorable before you
Even my instincts can't ignore it
Oh you're amazing girl
Your gestures make people exclaim with adoration
Oh you are perfection without a single error
You can't be refused

Queen this 4-word phrase
Cannot contain your name
When I am before you, I hold
A V sign for victory
I am penniless
But for you
I will serve anything
I hope that you love me in return

Everyone worships you
Pierce through your world and come to me
I want everything
Come to me a little more secretly
I am not afraid at all
Bring your heart here
Come to me
You are my only queen

I am still as if I've been caught in a trap
Your elegance is overreaching
I don't know how to get used to it
Like a piece of the forbidden fruit
I will get inside slowly, allow me

Everyone worships you
Pierce through your world and come to me
I want everything
Come to me a little more secretly

I am not afraid at all
Bring your heart here
Come to me
You are my only queen
