An infiltration with a shadow that remained hidden behind a mask's  
Flip Side  
A piercing eyes that I want to keep for myself And take in Rain of pain

A heart that is shaken by a sigh  
Because Loneliness and love seems the same to you

I will never let go of this hand a second time  
If there are sad things to cry about i will hug you tightly

A beam of light that isn't lost and shot towards a way  
SPOTLIGHT SPOTLIGHT  
With those eyes return your gaze back to me  
It is glistening for sure with your love  
And with my love for you

Please bring me back  
Just let me go  
A love so bright and draws you in deep like a ying yang

My thought of you that is being projected  
In my heart, Keep your eyes on me  
Really want to steal you away right now

Constantly ascending showcase's stage,  
Loud cheering, eye sights and brightness  
Being the supporting role no way no way  
Owning the red carpet on my own like a bullet train scarlett  
I won't stop baby amazing phenomenal u Is wavy  
Without hesitation chop chop I will grab your hands  
Within the mmonlight i want to show you off  
Within the darkness i want to dance

There won't be anymore that will intrerupt us anymore  
I will only give you my signature  
Let's get out from the crowds of people  
And go through the back stage  
Let's escape together

A beam of light that isn't lost and shot towards a way
