I was very lonely actually
You know when you strangely feel empty
I was in a lot of pain
When you can't sleep for some reason
Something like that
When I dream, I think of you
I try to erase you but it doesn't work that well

My heart wants to keep seeing you
I hope that you know

White girl I hope that you love me
White girl I wanna love your heart
White girl I hope that you adore me
White girl you are a pretty girl

I've yearned only for you with my pure heart
Save me from your trap
So I can love and learn
So I can touch your white heart

Let me live
Let me be next to you
I want you to breathe next to me yeah
Your heart and your body yeah
I want to melt you inside of me like white snow

White girl I hope that you love me
White girl I wanna love your heart
White girl I hope that you adore me
White girl you are a pretty girl

Oh baby how long will you
Leave me alone like this
White girl
You can fill up my everything
I love you

White girl I hope that you love me
White girl I wanna love your heart
White girl I hope that you adore me
White girl you are a pretty girl

White girl I hope that you love me
White girl I wanna love your heart
White girl I hope that you adore me
White girl you are a pretty girl

You are pretty
