

Wildfire

MONSTA X

Burning emotions I can't hold this long
You're moving fast but I want this slow
How can I trust but you're the one I love
Give me your love I can give you my all

You can make me down on your knees, doesn't matter
'Kiss' is what I need no need another
How many times do you really think of me
I'm just tryna get out of this painful love

I feel like it's a riddle messing with my head
And I can't fight
I don't think I know the feeling that's in my chest
I'm up all night, twisting, turning, breaking out in sweat
Inside this room, I found my doom

You pulled me in like a riptide
This love is sick and it spreads like
Wildfire, wildfire, oh oh oh
Wildfire, wildfire, oh oh oh

A single touch and the sparks fly
I'm burning up on the inside
Wildfire, wildfire, oh oh oh
Wildfire, wildfire, oh oh oh

(Yeah) Oh oh oh

Wildfire, wildfire, oh oh oh
