

You Problem

MONSTA X

Uh

I need to shape myself out
Shape myself out from loving you, loving you
But tell me what do I do? (Uh)
When you call me on a Friday night
But you never come through
Never come through

All these chills, all these thrills
Burn like million dollar bills
Got us naked on the floor
Like you never seen before
Heaven's closer than you think
You can taste it if you drink
But you don't (Uh)
No, you don't

But that's a you problem
You know it's out my hands
You count on me to solve 'em
'Cause you've been making plans
About us, it's simple
Get lost in the romance
And just dance
Oh let's just dance, alright
Said that's a you problem
I told you I'm your man
I'm only here for your love
I don't need no plan
About us, it's simple
Get lost in the romance
And just dance
Baby, let's just dance

You need to shake yourself down
'Cause I know that you've been missing me, missing me
And every time you say, "please"
I'ma pull you, pull you, pull you, pull you on your knees
On your knees, c'mon

All these chills, all these thrills
Burn like million dollar bills
Got us naked on the floor
Like you never seen before
Heaven's closer than you think
You can taste it if you drink
But you don't
No, you don't

But that's a you problem
You know it's out my hands
You count on me to solve 'em
'Cause you've been making plans
About us, it's simple
Get lost in the romance
And just dance

Oh let's just dance, alright
Said that's a you problem
I told you I'm your man
I'm only here for your love
I don't need no plan
About us, it's simple
Get lost in the romance
And just dance
Baby, let's just dance

Uh-huh, a you-you problem
Baby-baby, that's a you-you problem
Woah-oh, a you-you problem
Baby-baby, that's a you-you problem
Uh-huh, a you-you problem
Baby-baby, that's a you-you problem
Woah-oh, a you-you problem
Baby-baby, that's a you-you problem

But that's a you problem
You know it's out my hands
You count on me to solve 'em
'Cause you've been making plans
About us, it's simple
Get lost in the romance
And just dance (And just dance)
Oh let's just dance, alright (Let's just dance)

So that's a you ooh
Uh-huh, a you-you problem
Baby-baby, that's a you-you problem
Woah-oh, a you-you problem
Baby-baby, that's a you-you problem
Uh-huh, a you-you problem
Baby-baby, that's a you-you problem
Woah-oh, a you-you problem
Baby-baby, that's a you-you problem
