

Utopia

Monster Magnet

Love the morning when it comes up right
How the air fills up with light
Lately things just ain't as bright
Am I fading?

Nobody left hanging on this scene
It's all piggies and eaters of dreams
Thinking maybe I'll just float down stream
And maybe be somebody else
Maybe be anyone else

Man, there's too many cameras
And a whole lotta trail
Can't a man get lost anymore
Or is that over?

I'm stuck here in a world unkind
Building planets inside my mind
I may be stupid, but I ain't blind
I never be somebody else
I couldn't be anyone else
I guess I gotta be myself

It's in my head forever
It ain't goin' away
Utopia
Call me a fool for believing
If you've got a better way
Let me in
Ah, utopia
Let me in

It's in my head forever
It ain't goin' away
Utopia
Call me a fool for believing
That you've got a better way
Let me in
Ah, utopia
Let me in
Oh, utopia
Let me in
