

Murder One

Monster Truck

[?], it won't be long
I hear the feedback playing my song
A melody that I know so well
Send my eardrums straight to hell

Turn it to 10, set me loose
Ain't got a thing, nothing to lose
Turn it to 10, set me loose
Ain't got a thing I'd dare to lose

It's electric, noise pollution
Murder one, murder one
It's electric, noise pollution
Murder one

Feel the fury, it never rests
As the low end bounce your chest
Give in to the [?]
Free your mind and set your soul adrift

It's electric, noise pollution
Murder one, murder one
It's electric, noise pollution
Murder one

You can't fight it, you've got no choice
Volume is coming for you
It's electric, noise pollution
Murder one

Turn it to 10, set me loose
Ain't got a thing

It's electric, noise pollution
Murder one, murder one
It's electric, noise pollution
Murder one, murder one

You can't fight it, you've got no choice
Volume is coming for you
It's electric, noise pollution
Murder one
Murder one
