Monster Truck

Gotta get these legs a movin'
So I'm ready, so ready
For the new wave of the future
Cause we're tired,
so sick and tired.
I know I know I know people wanna revolution
I want I want freedom to reign again.
Burning in my soul.
Oh I can see with my eyes closed.
I can see it all.
Oh a new day is dawning.
I'm a firm believer in a gang mentality.
We're gonna take it back,
back to the way it used to be.
I know I know I know a new tide is rising.
I see I see people dancing in the streets.
