## Monster Truck

Alright

Fire away your ears have to pay  
Its the loudest thing on earth  
It isn't strange that you're feeling deranged  
You've been that way since birth

Oh, tonight is a riot, be careful where yo go  
Oh, never be quiet!

All we need is a real metal ripper  
All we want is to thrash our faces off like 1985!  
Get your fists in the air!

Ready to fight we have the right  
To take anything we want  
You're never safe your honours at stake  
Your every dream we haunt

Oh, we are the chosen ones to carry on  
Oh, your mind will be frozen!

All we need is a real metal ripper  
All we want is to thrash our faces off like 1985!  
Put your back in to it!

1985 like 1985  
1985 like 1985  
1985 like 1985  
1985 like 1985

All we need is a real metal ripper  
All we want is to thrash our faces off  
All we need is a real metal ripper  
All we want is to thrash our faces off like 1985!

All we need is a real metal ripper  
All we want is to thrash our faces off
