

Young City Hearts

Monster Truck

We are wild, we are free
Like the city, never sleep
We are young, wild, and free
Young city hearts, remember me?
Disappear into the streets
We are young, wild, and free
Yeah, we are wild and free!
Ah, yeah

Young city hearts, raise your voice and sing
Tonight is ours, forget everything
Under electric skies, my spirit came tonight
Now, we're somewhere, this is awesome time

We are wild, we are free
Like the city, never sleep
We are young, wild, and free
Young city hearts, remember me?
Disappear into the streets
We are young, wild, and free
Yeah, we are wild and free
We are wild and free!
Ah, yeah
Ooh, we are wild and free!
Ah, yeah

I just wanna run, have no regrets
It takes a little blood, and a little sweat
Under electric sky, my spirit can't deny
Now we're somewhere, this is awesome time

We are wild, we are free
Like the city, never sleep
We are young, wild, and free
Young city hearts, remember me?
Disappear into the streets
We are young, wild, and free
Yeah, we are wild and free!
Young, wild, and free, oh yeah
We are wild and free!
We are wild and free
We are wild and free
We are wild and free!
