

Gone Gone Gone

Monster

Yeah I love her but she's not coming back
The frail surface juast a-shivered and cracked
I'm shakin' all over like the leaves on a tree
I think I never told her what she's doing to me
Alright, alright

Yeah I miss her and she's not coming back
In a second all bright colours turned black
I'm wanting her to hold me, rest her love on me
I've never felt this useless nor this obsolete
Alright, alright

I said "Don't cry" it'll be just fine
I Guess I was wrong - She's gone

Gonna follow her 'cause she's not coming back
(Can't help it she ain't comin' back)
Yeah I've got courage but patience I lack
(Can't help it she ain't comin' back)
Got no time regretting what I'm gonna do
I don't wanna keep what I've been clinging on to no more
It ain't like before
My baby's not here no more
