Maelstrom

Monstrosity

Blinded by the ominous darkness
Entangled yet crawling through the undertow
Spit blood and fire mark the skyline

We dredge amongst the endless
Mountains of flesh and blood
Suffering through the passage

Visions of churning, reigniting visions
Look not behind you

Ignite the torch ablaze
Riots of turmoil
Ignite within decay
Heightened sight disorder
Ignite the torch ablaze
Burning flames eternal
Ignite within decay
Shadows flash in horror

Tumbling down peaks of despair
Debilitating rage engraved
Bones, skin and organs fill the rivers

Scars lashed upon our children
Uprooting nightmares within
Drown deep beneath our violence

Visions of churning, reigniting visions
Look not behind you

Ignite the torch ablaze
Riots of turmoil
Ignite within decay
Heightened sight disorder
Ignite the torch ablaze
Burning flames eternal
Ignite within decay
Shadows flash in horror

Bring down the world and kill their souls
The aftermath it only worsens with the time
...and now there's nothing
The maelstrom has been redefined
...and now there's nothing
