

I don't need  
Nothin I've been getting from you  
I could be  
Somebody with nothin' to lose  
Back and forth  
Tell me when the distance is right  
Fall asleep  
Fuck it, I don't need your advice  
Oh why  
Tell me baby

Why don't you get off of my cloud  
'Cause I don't think I'll ever come down  
But if you ever do come around  
We can get high, high (High)

Let me breathe  
I don't wanna get it from you  
I don't need  
Nothing but a face with a view  
(Ooh, with you)

I got enough  
Enough to get by  
Enough to get high  
Enough to wanna get down  
I'm cool with nobody around  
Oh boy, unless you got something else  
Tell me why don't you get-

Why don't you get off of my cloud  
'Cause I don't think I'll ever come down  
And if you ever do come around  
We can get high, high (High)

We can get high  
We can get high  
We can get high  
We can get high
