

# Beautiful

Montell Fish

Beautiful head on her shoulders  
How many times have I told her?  
Watch her get lost in her moment  
Please, honey, don't you lose focus  
Fail to realize that your beauty is inside  
It's all in your design, like God made you  
What a beautiful head on your shoulders

But, I love you like no other  
I love you like no other

What a beautiful head on her shoulders  
So many times have I told you  
Don't you get lost in your moments  
Now's not the time to lose focus  
Don't you fail to realize that your beauty is inside  
It's all in your design, like God made you  
What a beautiful head on your shoulders  
Please, baby, don't you lose focus, don't you lose

Focus  
Don't you be hopeless  
Look at this this opus  
Stuck with these locusts  
Lost in this ocean  
I have been hoping  
Lost in this moment  
I need your notion

You see, I'm stuck inside the wilderness  
And illness is and realness is been calling me  
Honestly, shipping through this odyssey, I  
I've been deceived for a minute  
And I can see that I'm sinning  
And I can see that I'm living  
I know it could be better  
Catching Z's like the letter  
Hide your beauty in your sweater  
You have that beautiful soul  
You don't even know how far you can go  
But I can see it

What a beautiful head on your shoulders  
So many times have I told you  
Don't you get lost in your moments  
Now's not the time to lose focus  
Don't you fail to realize that your beauty is inside  
It's all in your design, like God made you  
What a beautiful head on your shoulders  
Please, baby, don't you lose focus, don't you lose
