

Clear Pictures

Montell Fish

You know me more than I know myself
My constant help
You are my peace through every storm
Beyond the norm, clear picture
You are my clarity, like a clear picture
My new reality
You know me more than I know myself
My constant help
You are my peace through every storm
Beyond the norm, clear picture
You are my clarity, like a clear picture
My new reality

I am standing in front of You, right in front of You
God, I run to You
They don't see what I'm running through
So I come to You
'Cause You see right through
Your name is Jesus
Alpha and Omega
Forever reign as Saviour
I'm so glad You saved us
You're the peace in the storm
My lights turning on
My life is forever changed

You know me more than I know myself
My constant help
You are my peace through every storm
Beyond the norm, clear picture
You are my clarity, like a clear picture
My new reality
You know me more than I know myself
My constant help
You are my peace through every storm
Beyond the norm, clear picture
You are my clarity, like a clear picture
My new reality

Lord, search my heart
You know me, God
Lord, search my heart
You know me, God
Lord, try my thoughts
You know me, God
Lord, try my thoughts
You know me, God

You know me more than I know myself
My constant help
You are my peace through every storm
Beyond the norm, clear picture
You are my clarity, like a clear picture
My new reality
You know me more than I know myself
My constant help
You are my peace through every storm

Beyond the norm, clear picture
You are my clarity, like a clear picture
My new reality
