

## Cold World

Montell Fish

Been dreaming, I've been dreaming bout  
All the things that we could live without  
People seeking reasons just to fall  
Pray my God would keep me through the storm  
What the hell is really going on  
Angels turn to demons in they souls  
Got a bunch of evil they souls

Keep on swimming, keep on swimming fish  
Drown the liquor won't you take a hit  
Smoke this weed it's even legal now  
Drop your morals, please just for a while  
Glad my God done freed my soul  
Look up to the stars  
I know earth is not my home

Yo my name fish  
Look into my eyes and take wish  
Had to flip that crack rock  
And the lyrics be a fix  
I'm it  
I'm the one people looking for  
And I came to bring the light  
Like every song lit  
You know I know gotta watch what say  
Coz the devil tryna take my soul  
Tryna take my soul  
My father told me I'm a be okay  
But my father told me its gon' be okay  
In this cold cold world
