

# DISTRACTION

Montell Fish

You're such a distraction  
I swear you're made for my madness  
Do all the things I imagine  
I can't keep letting this happen  
You're such a distraction  
You've got my heart doing backflips  
Can't break your spell 'cause it's magic  
I...

Can't break your spell, it's like magic  
I can't keep letting this happen  
Your demons call for my ashes

Who got my heart doing bad things?  
I don't know how  
I'm attracted  
I swear there's something wrong with  
Help me

You're such a distraction  
I swear you're made for my madness  
Do all the things I imagine  
I can't keep letting this happen

You're such a distraction  
I swear you're made for my madness  
Do all the things I imagine  
I can't keep letting this happen  
You're such a distraction  
You've got my heart doing backflips  
Can't break your spell 'cause it's magic  
I...

I can't keep letting this happen  
I can't keep letting this happen

I can't keep letting this happen
