

# Give U More

Montell Fish

Can I give you more?  
Can I give you more, child?  
Can I give you more?  
Can I give you more, child?

It's like this world will try to break you when you try to free yourself  
The stress is overwhelming  
You cannot tell your friends  
The storm is never ending  
The rain over your head is  
Pouring, now you're going down again  
But His love is without ending  
It's highly recommended  
The kind of friend that loves you when you cannot love your self  
I'm going through the motions  
I could really use a hand  
So show me how to see myself again  
Now right then  
I can see myself for what You see in me  
And I think  
You know, the end is worth the time You put in me  
So I'm in  
I give You all of my faith  
You can take all my sins  
I'ma follow Your ways  
Sing, give you everything  
I seen depths of depression  
I seen pieces of heaven  
I seen friends I thought were family put my feelings second  
And I consider 'em lessons  
What's meant to be the death of me You made into blessings

Can I give you more?  
Can I give you more, child?  
Can I give you more?  
Can I give you more, child?

I will give you everything, My child  
Just waiting for the timing, hold now  
I will give you everything, My child  
Just waiting for the timing, hold now  
I will give you everything, My child  
Just waiting for the timing, hold now  
I will give you everything, My child  
Just waiting for the timing, hold now

Can I give you more? (I will give you everything, My child)  
Can I give you more, child? (Just waiting for the timing, hold now)  
Can I give you more, child? (I will give you everything, My child)  
Can I give you more? (Just waiting for the timing, hold now)  
Can I give you more, child? (I will give you everything, My child)  
Can I give you more? (Just waiting for the timing, hold now)  
Can I give you more, child? (I will give you everything, My child)  
Can I give you more? (Just waiting for the timing, hold now)
