

# SCREAM MY NAME

Montell Fish

She don't scream my name no more  
Can't even spit my game no more  
How can I explain it all?  
Explain it all

(You haven't screamed my name in a while  
You haven't screamed my name in a while  
You haven't screamed my name in a while  
You haven't screamed my name in a while)

She don't scream my name no more  
Can't even spit my game no more  
How can I explain it all?  
Anymore

Tell me baby  
Are you crazy for me?  
You haven't screamed my name in a while  
You haven't screamed my name in a while  
Tell me baby  
Are you crazy for me?  
You haven't screamed my name in a while  
You haven't screamed my name in a while

She don't scream my name  
I think I lost this love game, oh  
Missed when I had it  
Got so damn distracted  
Oh no  
Oh no, I know  
Maybe we can work this out  
I'd love to just scream your name  
Don't you wanna hear me shout?

Tell me baby  
Are you crazy for me?  
You haven't screamed my name in a while  
You haven't screamed my name in a while  
Tell me baby  
Are you crazy for me?  
You haven't screamed my name in a while  
You haven't screamed my name in a while

She don't scream my name no more  
Can't even spit my game no more  
How can I explain it all?  
Explain it all

She don't scream my name  
She don't scream, she don't scream my name

She don't scream my name no more  
Can't even spit my game no more  
How can I explain it all?  
Explain it all

She don't scream my name

She don't scream, she don't scream my name
